

Tittel: Shared decision making: Really putting patients at the centre of healthcare

Forfatter: Stiggelbout, A., Weijden, T., Wit, M., Frosch, D., Légaré, F., Montori, V., . . . Elwyn, G.

Referanse: *Stiggelbout, A., Weijden, T., Wit, M., Frosch, D., Légaré, F., Montori, V., . . . Elwyn, G. (2012). Shared decision making: Really putting patients at the centre of healthcare. BMJ, 344(7842), E256.*

Sammendrag:

Although many clinicians feel they already use shared decision making, research shows a perception-reality gap. A M Stiggelbout and colleagues discuss why it is important and highlight some best practices.
